

## English

Ever since their founding in 2016 KID DAD have relentlessly been releasing music and touring: In 2017 their debut EP “Disorder” was released with its scene-hit “Rehab” and at the end of the year their single “My Inner Baby” followed, revealing a strong maturing process in their music. Two singles “Happy” and “The Wish Of Being Alone” were then released in 2018, showing a constant progression of KID DAD's sound.

Their melancholic alternative rock sound got them international attention and allowed the quartet tours with Taking Back Sunday, Marmozets and only recently Fatherson. With their mixture of raw and experimental sounds, loud guitars and hooky melodies, guitarist and singer Marius Vieth, bassist Max Zdunek, drummer Michael Reihle and lead-guitarist Martin Gundt manage to balance soundscapes from Grunge/Shoegaze to Post-Punk and create music that is so distinctive and as well lively as unpredictable at the same time.

KID DAD's new single “Naked Creatures” combines just about every layers of music the band has explored before. Picturesque verses, massive chorus' and weightless choirs make this song the most elaborate, cunning and distinctive release of the band so far.

KID DAD will be touring in the UK and EU following the release of the single and will hit 15 cities in England, Scotland, Sweden, Germany, Denmark, Austria and The Netherlands.
